CATALOGUE 2020 **easy air system**

Easy air system

Décoration lumineuse composée d'une plateforme technique sur laquelle on fixe une housse. Grâce au ventilateur et l'éclairage à LED, la housse prend forme et s'illumine de l'intérieur.

Support de signalisation et de communication attractif, personnalisable avec impression de logos ou branding complet de la housse.

Fabrication de décorations lumineuses sur mesure, prix sur simple demande.

Système unique d'éclairage RGBW, avec programmes et télécommande, pouvant fonctionner sur batterie. Technologie brevetée.

Luminance propose les structures gonflables lumineuses, et décorations en tissu stretch, en location pour vos événements et animations.

Design et technologie pour vos événements

easy air system

Plateforme Technique

Eclairage à LED RGBW, équivalent à max. 96W
Ventilateur avec réglage de puissance
Télécommande, nombreux effets et programmes
4 tampons réglables, crochet de suspension
Usage : Indoor et outdoor IP44
Diamètre : 60 ou 77cm selon la forme de la housse

Prix de location :

Plateforme Ø 60cm : CHF 120. – (sans housse)

Plateforme Ø 77cm : CHF 140. – (sans housse)

Livraison et reprise non inclus

Options :

- Batteries rechargeables d'une autonomie env. 3h par batterie, Maximum 4 batteries /plateforme : CHF 50.-- / batterie louée
- Connexion DMX
- Lestage

Exemple d'housse pour plateforme technique

Fixation de la housse au moyen d'une fermeture éclair (zip)
Couleur blanc (standard)
Autres couleurs et logo sur demande
Protection non-feu DIN 4102 B1
Waterproof, lavable en machine

Le prix de location des housses varie selon le modèle, voir pages 3 à 12 du catalogue.

General Information

¹ Sail has 4 additional stretching points.

- All sails are freely stretched and have no frame. All dimensions refer to the sail when stretched.
- Rental sails are regularly available in white with a grey border. All rental sails are permanently flame retardant in accordance with DIN 4102 B1.
- Purchase sails can be selected using the colour sample card. Custom shapes, custom colours and printed sails upon request.
- You can choose between material which is flame retardant in accordance with DIN 4102 B1, permanently flame retardant in accordance with DIN 4102 B1 or sprinkler suitable (also permanently flame retardant in accordance with DIN 4102 B1).

*This product is protected as a registered design.

CATALOGUE 2020 **easy sky & truss covers**

easy sky

- Up to 50% less expensive than standard interior skies for pagoda and pavilion tents with a large colour selection features six colours for rent.
- Time-saving installation, since the **easy stretch** sky can be installed by a single person in just a few minutes. The plastic hooks built into the eyelets can be easily suspended in the profile groove.
- Suitable for all four-sided pagoda tents from 3.0 – 10.0 m and multi-corner pavilions from 6.0 – 10.0 m.
- An opening exists in each **easy sky** so that a lighting unit can easily be installed.
- The **easy stretch** material is a stretchable fibre made from polyamide and elastane which is flame retardant in accordance with DIN 4102 B1. The technical fibre is resistant, easy to care for and does not need to be smoothed before installation.

PROJECTIONS

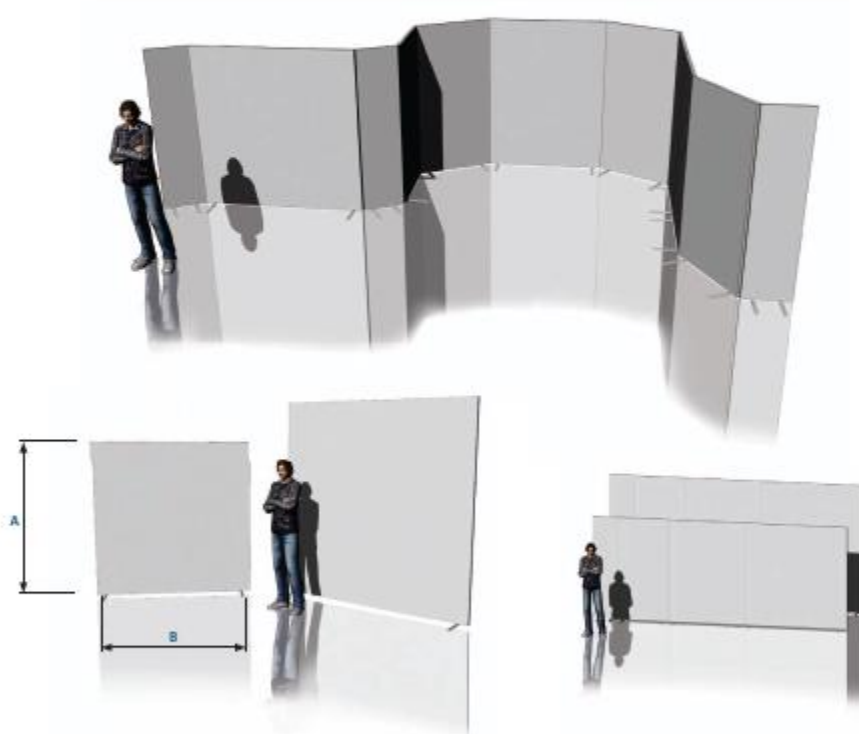

CATALOGUE 2020 **innolution systems**

WALLsystem WALL 2D

Simple and functional: With the modular prefabricated construction system, standard heights of 2.0 m and 2.5 m can be created. The standard modules are available in lengths of 0.5 m; 1.0 m; 1.5 m and 2.0 m. WALL 2D can be joined together without a gap or set up individually.

- Can be covered on both sides with stretch fabric
- Seamless look
- Free-standing design possible with feet
- Versatile e.g. as a presentation wall, room divider or printed advertising display
- Generation of any desired length of wall displays – straight or around the corner
- Large prints can be stretched over several frames without a gap

	size A - standard heights	size B - modular standard lengths	comment
WALL 2D	2,0 m/ 2,5 m	0,5 m/ 1,0 m/ 1,5 m/ 2,0 m	special sizes at purchase are available upon request.
stretch fabric colours for rent			
stretch fabric colours for sale			

Price, availability and delivery time of other colours upon request. All colours are permanently flame retardant according to DIN 4102 B1.

CATALOGUE 2020 **easy air system**

WALLsystem CURVED WALL

The elegant, curved designs make CURVED WALL a real eye-catcher. Through the different angle sizes, bigger or smaller curved walls can be created. Depending on the arrangement of the modules, any desired shape can be created. CURVED WALL can be freely combined with WALL 2D resulting in more combination possibilities.

- Elegant, curved shape
- Gapless modular or individual piece construction possible
- Seamless look
- Can be covered on both sides with stretch fabric
- Individual motif print possible

WALLsystem WALL 3D

The proven WALLsystem is also available as a three-dimensional piece. The standard depth in the free-standing wall design is 0.5 m which means LED lighting can be easily integrated. WALL 3D is available in heights of 2.0 m und 2.5 m and standard lengths of 0.5 m; 1.0 m; 1.5 m; 2.0 m. The separate WALLsystem 3D elements can be placed on top of each other and do not require connectors.

- Can be covered with stretch fabric all around
- Self-standing design possible with 0.5 m standard depth
- Generation of any desired length of wall displays – straight or around the corner
- Versatile e.g. as presentation wall, room divider or luminary
- Use as advertising display through large-area printing
